1) Economic and financial capacity of candidate:

In the case of the applicant being a public body equivalent information should be provided:

1. the average annual turnover of the candidate in 2008, 2009 must exceed 1 000 000 EUR.

It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the applications of these candidates must be re-examined to identify the 8 best applications for the tender procedure.

The only factors which will be taken into consideration during this re-examination are:

as the first re-examination criterion, the number of occurrences of references satisfying 21.3.1. In case of equality between the applicants as a result of the first re-examination, a second criterion will be applied to the candidates on equal terms, which is the cumulative value of the references (proportion carried out by the candidate) satisfying 21.3.1.
